After a break from local government, I want to serve my community once again.

I believe the Shire of Manjimup has a lot of untapped potential that needs strong representation on the Council to see not only current but future projects come to fruition.

Our children's futures are based on decisions that we make today and those decisions need to be guided by community buy-in.

Our people are our greatest asset and every decision should be made with their prosperity in mind.

Small and efficient government is one way to ensure that every dollar collected on behalf of ratepayers is spent wisely on their behalf.

We need an experienced voice on the council to ask the tough questions in relation to our road network and why it seems to be deteriorating at a faster than normal pace.

Manjimup needs to grow and flourish into a regional center that will provide all residents with opportunities that don't currently exist.

I ask for your support on election day
