PHILLIPS, Dean

With your support I pledge to be an ethical East Ward Councillor who will advocate for you & our community.

If elected I will push for improvements to our gravel roads. Perup road is a disgrace. I am opposed to the Southern Forests Irrigation Scheme. It is not designed to assist local farmers in creating genuinely sustainable farming practices. I also want to encourage improved forestry management. I would like to see a broader transition to plantation woods.

I'm well known for being reliable & getting things done.

If elected, I will commit to a financially responsible council that considers all community sectors, from local job creation to a sustainable future
