SMART, Bill

I have lived on our small farm on the Perup River for the last 30 years.

I believe in responsible, sustainable development within our Shire that is in all residents interests.

The future belongs to our children and I would strive to ensure they have a community and an environment that reflects their aspirations. Local job creating projects for our younger generation is a key factor in creating a vibrant future for them.

Responsible local government decisions that promotes community building, is transparent, inclusive and accountable is something I wish to be a part of.

Manjimup is a unique, special place to live and bring up a family, it is the reason we live here, I would strive to ensure this uniqueness continues.
