Upholding the ambitions of our community isn't a task for the faint-hearted; it's for those who step up, roll up their sleeves, & commit to real action. It takes people dedicated to not only hearing but actively listening to the voices that matter: yours.

This is as important to me as it is to you. Because as a Mum, I want Manjimup to be a place where our kids can grow, learn & experience the best of country life. As a business owner, I hope for a thriving local economy that supports our small business sector. As a community member, I want to get behind the things that make Manjimup a great place to live.

I will bring my skills in business & financial management, experience in local not-for-profit groups & committees, & knowledge of government processes to make our Council more open & accessible to the people, conscious of the impact their decisions have & reflect the goals of young families whose future is this town. I ask for your vote to bring fresh ideas with a balance of experience.
