

Shire President's Message

COVID-19

I continue to thank everybody for complying with the Government's COVID-19 restrictions and requirements, it is your effort and diligence that has seen no cases in our Shire. WA is continuing it's hold against the virus and we are seeing restrictions lifted and social and recreation facilities returning to a new normal.

I ask you again to shop local, our local businesses are suffering, some have found innovative ways to continue their valuable service to our community, so whether its physical, electronic or drive-thru, please support them, so that they can continue to serve us in the future.

Great Staff

A couple of outstanding efforts by Shire staff in the past few weeks deserve some

recognition for going above and beyond in their service.

Mark Sewell our Waste Management Officer arrived at work at 7am on a Monday to an email from a concerned grandmother whose young granddaughter had mistakenly thrown her dental plate in one of our public town rubbish bins over the weekend. In typical Mark fashion he sprung to action phoning the contractor to stop the bin pick-up, he then drove down to the public bin, hand emptied it and retrieved the dental plate.

Our Community Services Team together with two Corporate Team members recently participated in the Push Up Challenge.

There were eight participants and they completed 3,046 push ups each – totalling 24,368, and have so far raised \$2,689. This money will go directly to Headspace Bunbury. The Push-Up Challenge is a yearly event which encourages people to get fit, have fun and support mental health.

Don't Drive Tired Campaign

This Road Safety Commission grant funded project is a collaboration with 16 South West Local Governments coordinated by RoadWise.

Drivers travelling down south or up to Perth can stop and take a break and receive a free coffee or tea along with a reusable travel mug and a flyer on driver fatigue from several service stations including BP Manjimup. The project is encouraging drivers to also participate in an online survey to raise their awareness, test their knowledge and tell us their attitude toward driver fatigue, the survey can be found at

www.surveymonkey.com/r/swdriverfatigue
A driver who has been awake for 17-19 hours has the same driving ability as an individual with a blood-alcohol level of 0.05%. While stopping every 2 hours for a break, swapping drivers and taking a 20 minute power nap are all good tips to avoid driver fatigue, the only way to prevent fatigue is to get enough sleep.

Until next time stay well & safe....Paul
