

# Ag Inspirations 2016

## A careers program for the agricultural industry

Ag Inspirations is a program for year nine students from the Manjimup region. These students are provided with the opportunity to explore careers in Agriculture in a fun, hands-on and interactive way.

Students find out more about themselves;

*“I already knew I wanted to do something with animals and this has made me look further into it”*

the agriculture industry; *“I didn’t know how big the industry is - so many jobs!”*

and career pathways in agriculture; *“I realised I need to make the most of school”*

The strength of the program is the interactive exchange between students and industry people as well as the hands-on structure of agricultural learning activities.

Students are actively encouraged to ‘interview’ the farmers and agribusiness people they meet during the program, which results in more confident students with a much deeper understanding of the industry and a far greater appreciation of the range of jobs it offers
